

On August 8, 2009, the LGGMc Board and Members present Voted to **Approve the Establishment of a Youth Program!**

Also approved was an annual budget of approximately \$400.00 for program materials.

The youth committee is co-chaired by instructor **Steve Veatch** and our club vice-president **Dan Alfrey**.

Other program instructors include newsletter editor **C.R. (Bob) Carnein**, and our club president John Rakowski .

The youth meetings will be modeled after the Pebble Pups program in which co-chair Steve Veatch currently runs for the CSMS in Colorado Springs.

Meetings are on the **Second Tuesday evening** of each month at the **Community Center in Lake George**, and meeting times are from **6:00 p.m. to 6:45 p.m.**

Topics that will be covered in work shops, nature & science writing, and field trips include: Geology, Rocks, Minerals, and Fossils.

We are very excited to get all the **Teller & Park County youth** (ages 7-17) involved from area schools, science clubs, 4-H clubs, and home-school too!
